2 · VARY AND ITS TRIMS each layer's part page

Each layer's own Vary is a trim on Form's: its amount is Form's Vary plus the trim, 0 to 100. Centred: 0 follows Form, far left **HOLD**, that layer never turns. At an amount of 0 (Vary 0, the trims 0; or Hold) nothing turns and no stab is thrown.

CHORD ENV	The stab pattern turns or gains or loses a stab (every two bars); stabs and whole bars drop out; the throws.
PINGS ARP	At a loop's end, a note moved or changed; a pass sat out.
BASS LFO	The plan drawn anew (kept 2 to 6 phrases first); the octave note; the borrowed groove, as the square of the amount.
DRUMS SEQ	How long the kick holds a shape (2 to 6 phrases) and how far it wanders; the shaker's steps trade places; the clap's odds.
NOISE SAVE	How often its groove is drawn anew at a phrase, rather than kept.
FORM'S ALONE	Now and then, at a chord change, the walk's other voicing.

3 · DRIFT HOME · Form KNOB 4

One amount for all the sound's slow movement; the notes, patterns and sections go on the same.

THE LFOS	The chord's and the noise's, their wave and their wander: about an octave of the chord's filter at 50, 1.7 at 100.
LFO PAGES ENV x4, SAVE x3	**Drift** more or less of Form's (far left **Still**, +50 twice); **Wave** wander to wave; **Rate** 1 to 32 bars; **Target** Cutoff, Reso, Colour; Filter, Tone, Air (sheets 4, 8).
THE SWEEPS	How far the filter's long sweeps go; the echo's heads, band-pass and feedback wandering.
THE RIDES	Each part's level, echo and plate send, the chord's filter, the feedback: a new place every 10 to 60 s, any semicorchea (16th). at 100: levels -7..+3 dB, sends -8..+6, ±0.55 oct

4 · MOTION'S ZONES HOME · Form KNOB 3

The arrangement only. Each zone adds a kind of event to the ones before.

BREATHES 0 – 39	"Parts out and back, the kick out a bar or two": a part out (the chord, bass 12 dB down) or swelled into the echo, one a minute at 40; the kick out one in two minutes. 0: "Nothing leaves".
SECTIONS 40 – 69	"Thin and Groove phrases join, rarely to often": Thin (no bass, no shaker), Groove (every other stab), a phrase or two; 5% of the phrases at 40, 50% at 70. Fills join.
BREAKS 70 – 100	"Breaks join: the kick and the bass out a phrase", up to 60% of the departures at 100. Four phrases of Full between any two.

5 · ENERGY Form KNOB 1 · not saved

MOVES	The pings' notes and level, Hits and the hats' level and colour, the stabs' count and length, the kick's shape, the bass's Density; most reach their end at ±50. No zones.
