DUB-1 BASS

LFO: a sub on the chord's root, its groove held a phrase at a time, as of 1.4.0 (build 3c00820). FM-1 firmware.

Bass 1/3: its lane (A, B), notes raised by pitch, resting ones outlined.

Bass voice 2/3: Octave, Shape, Gate, Glide.

Bass FM 3/3 on Sub: not FM, its Bite alone.

Density 20: the zone's name under the value, its sentence below.

Density 65: the ring in two segments, the names round it.

1 · WHAT IT IS

One note at a time on the chord's root, low (E1 to Eb2), on a groove of semicorcheas (16ths). It slides briefly from note to note.

THE PLAN — A phrase plays A A A B A A A B (card 8). Which notes rest, which are the fifth, the octave note: drawn once a phrase, the same every A bar.

OCTAVE NOTE — Now and then one note an octave up (never the bar's first), the same place each bar: more often as Vary rises.

BORROWED GROOVE — Rarely, at a phrase, Groove steps to a neighbour, later back: as the square of the bass's Vary (100: 7 phrases in 400; Hold: never). Lock rests it.

DRY — No echo in any piece (its strip's Echo 0); some plate. The duck pushes it deeper and lets go slower: it pumps.

2 · THE BASS PAGE `LFO · then voice › FM › back`

GROOVE KNOB 1 — The pattern, sparse to busy: **Drone** (one note a bar, held almost to the next), **Offbeat** (the four "ands"), **Dotted**, **Sync**, **Roller**.
`Drone · Offbeat · Dotted · Sync · Roller`

VARY KNOB 2 — Its figure's changes, more or less than Form's Vary: the plan drawn anew (kept 2 to 6 phrases first), the octave note, the borrowed groove. Far left **Hold**: the plan kept.
`Hold · 0 as Form's · +50`

DENSITY KNOB 3 — How many of the groove's notes play, from the bar's first alone to all; the last one drawn fades in, so every step is heard. Two zones (card 3).
`0 the first alone · 100 all`

FIFTH KNOB 4 — How often a note is the chord's fifth, not its root. The bar's first is always the root; on Drone, how often a whole bar is the fifth.
`0 never – 100 every note`

3 · DENSITY'S ZONES `KNOB 3, in segments`

Turning it, the big ring shows the zones round it; the zone's sentence is the help line; the reader says "Density 20, Sparse".

SPARSE `0 – 29` — "The groove's notes join one by one." At 0: "The bar's first note alone".

PICKUPS `30 – 100` — "Busy bars add a pickup into the next": a busy B bar plays the whole groove and a note on the bar's 15th semicorchea. The notes go on joining to 100.

On Drone (one note a bar) only Pickups is heard. Energy (Form) thins it or fills it.

4 · THE VOICES `ALGORITHM, a bass page; round`

SUB — A sine and a little of its octave. Not FM.

PUNCH — An FM stack: a thump in its first 90 ms. Algorithm 1.

RUBBER — Two pairs, one an octave under; op 4 feeds back.

PLUCK — Two operators at 3: a pluck gone in 50 ms. 2-op.

GROWL — Two operators at 1: a bite with each note. 2-op.

5 · THE BASS VOICE PAGE `LFO again`

OCTAVE KNOB 1 — The bass an octave down or up. At -1, E0 to Eb1: felt more than heard.
`-1 · 0 E1–Eb2 · +1`

SHAPE KNOB 2 — A pure sine, to a square.
`-50 sine · 0 the voice's · +50 square`

GATE KNOB 3 — How long each note holds, against its groove's.
`-50 half · 0 · +50 twice (Drone: the bar)`

GLIDE KNOB 4 — How long it slides to the next note.
`-50 ~0.6 ms · 0 12 ms · +50 ~250 ms`

6 · THE BASS FM PAGE `LFO a third time`

ALGO KNOB 1 — Which operators modulate which (sheet 5's drawing).
`Voice · 1 – 8 · 2-op`

RATIO KNOB 2 — Operators 3 and 4's pitch.
`-50 half · 0 · +50 twice`

FEEDBACK KNOB 3 — Op 4 on itself, from the voice's own: pure to gritty.
`0 – 100`

BITE KNOB 4 — Drive: clean to growling, on every voice. On Sub the other three grey.
`-50 clean · 0 · +50 growling`

7 · LEVEL, STRIP, LFO HELD

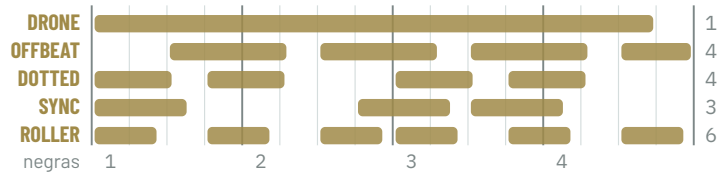

OCT- / OCT+ — On a bass page: its level, 5 a press; both together, muted or back.

THE STRIP — SEL, white 3 (A3) held: Level, Echo, Plate, Filter. Black 3 (A#3): a tap solo, held a throw, driven so it carries in the echo (sheet 2).

LFO HELD — 0.5 s, a **nudge**: Bite, Shape, Gate, Glide, Fifth a step (Ratio, Feedback on an FM voice). 1.5 s, a **shake**: another voice and a neighbouring groove, every value a big step.

8 · THE GROOVES, AND THE PLAN `each note its gate long; 1-4 the negras (quarters)`

THE GROOVES: A BAR OF SEMICORCHEAS (16THS)

A PHRASE: EIGHT BARS

A	A	A	B	A	A	A	B

A the same each time; B (bars 4 and 8) busy or sparse:

Dotted: busy adds a pickup (outlined); sparse, every other.
