## 2 · VARY AND ITS TRIMS each layer's part page

Each layer's own Vary is a trim on Form's: its amount is Form's Vary plus the trim, 0 to 100. Centred: 0 follows Form, far left **HOLD**, that layer never turns. At an amount of 0 (Vary 0, the trims 0; or Hold) nothing turns and no stab is thrown.

| | |
|---|---|
| **CHORD**<br>ENV | The stab pattern turns or gains or loses a stab (every two bars); stabs and whole bars drop out; the throws. |
| **PINGS**<br>ARP | At a loop's end, a note moved or changed; a pass sat out. |
| **BASS**<br>LFO | The plan drawn anew (kept 2 to 6 phrases first); the octave note; the borrowed groove, as the square of the amount. |
| **DRUMS**<br>SEQ | How long the kick holds a shape (2 to 6 phrases) and how far it wanders; the shaker's steps trade places; the clap's odds. |
| **NOISE**<br>SAVE | How often its groove is drawn anew at a phrase, rather than kept. |
| **FORM'S ALONE** | Now and then, at a chord change, the walk's other voicing. |

## 3 · DRIFT HOME · Form KNOB 4

One amount for all the sound's slow movement; the notes, patterns and sections go on the same.

| | |
|---|---|
| **THE LFOS** | The chord's and the noise's, their wave and their wander: about an octave of the chord's filter at 50, 1.7 at 100. |
| **LFO PAGES**<br>ENV x4, SAVE x3 | **Drift** more or less of Form's (far left **Still**, +50 twice); **Wave** wander to wave; **Rate** 1 to 32 bars; **Target** Cutoff, Reso, Colour; Filter, Tone, Air (sheets 4, 8). |
| **THE SWEEPS** | How far the filter's long sweeps go; the echo's heads, band-pass and feedback wandering. |
| **THE RIDES** | Each part's level, echo and plate send, the chord's filter, the feedback: a new place every 10 to 60 s, any semicorchea (16th).<br>at 100: levels -7..+3 dB, sends -8..+6, ±0.55 oct |

## 4 · MOTION'S ZONES HOME · Form KNOB 3

The arrangement only. Each zone adds a kind of event to the ones before.

| | |
|---|---|
| **BREATHES**<br>0 – 39 | "Parts out and back, the kick out a bar or two": a part out (the chord, bass 12 dB down) or swelled into the echo, one a minute at 40; the kick out one in two minutes. 0: "Nothing leaves". |
| **SECTIONS**<br>40 – 69 | "Thin and Groove phrases join, rarely to often": Thin (no bass, no shaker), Groove (every other stab), a phrase or two; 5% of the phrases at 40, 50% at 70. Fills join. |
| **BREAKS**<br>70 – 100 | "Breaks join: the kick and the bass out a phrase", up to 60% of the departures at 100. Four phrases of Full between any two. |

## 5 · ENERGY Form KNOB 1 · not saved

| | |
|---|---|
| **MOVES** | The pings' notes and level, Hits and the hats' level and colour, the stabs' count and length, the kick's shape, the bass's Density; most reach their end at ±50. No zones. |
| **LEANS** | Past +25 a Break comes as a Groove; past -25 a Groove as a Thin. It never locks the sections. |
